PROFESSIONAL SUMMARY

Computer Science student at Karatina University and Frontend Developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, and React. Experienced with React Hooks, React Router, responsive design, and client-side functionality. Familiar with backend development using Node.js, Express.js, REST APIs, and MongoDB. Experienced in building and maintaining web projects using Git and GitHub. Seeking an entry-level or internship Frontend Developer role.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Frontend: React.js, React Hooks, React Router, Responsive Design, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, MongoDB

Tools: Git, GitHub

PROJECTS

Personal Portfolio Website

- Redesigned and developed a responsive personal portfolio using a custom design system focused on typography, spacing, and visual hierarchy.
- Implemented scroll-spy navigation using JavaScript, `offsetTop`, and `requestAnimationFrame`.
- Structured the portfolio into six sections to present technical skills, projects, background, and contact information.

Karatina Tech & Repair

- Developed a responsive multi-page website for a technology repair business.

- Implemented a functional contact form and active-state navigation.
- Developed both multi-page and single-page versions while maintaining a consistent layout and design system.
- Applied responsive design principles to provide a consistent experience across different screen sizes.

Responsive Login Page

- Developed a responsive login interface with custom JavaScript form validation.
- Implemented password visibility functionality.
- Added email validation using regular expressions and an eight-character minimum password requirement.
- Implemented custom JavaScript error handling using novalidate and client-side validation.
